Correspondence.

ATLANTA, GA., October 8, 1870.

Hon. George Hillyer: SIR—By a convention of delegates, representing the Democratic party of the counties of Cobb, Fulton, and Clayton, comprising the 35th Senatorial District of this State, which assembled this day in this city, for the purpose of selecting a candidate to represent said District in the next General Assembly, you were chosen the candidate of the Democratic party for that position, and the undersigned were appointed a committee to communicate to you the action of the convention, and request your acceptance of the candidacy to which you have thus been called.

Hoping that you will allow the party thus to use your name, and trusting that your nomination may be ratified by a triumphant election at the ballot box,

We are very respectfully your obedient servants.

GEO. N. LESTER,
W. L. WATERSON, } Committee.
W. M. BUTT,

ATLANTA, GA., October 8, 1870.

Messrs George N. Lester, W. L. Waterson and W. M. Butt, Committee:

GENTLEMEN: Your letter of this date informing me of my nomination as the Democratic candidate for Senator, from the Thirty-fifth Senatorial District, has just been handed to me.

Important and grave responsibilities must rest upon all members of the next General Assembly. Abuses have grown to large proportions in the affairs of the State, and if not arrested, will bring bankruptcy and ruin.

I would not disparage those good and true Democrats now in office, who have have done what they could to stem the current of wrong; but from the next General Assembly the people will expect much—will not be satisfied with any small results, and will visit indignation upon such of its members as bring disappointment and failure.

I feel deeply grateful to the convention, and to the Democracy of the district, for the confidence implied by their selecting me as a candidate at a such time.

In politics having ever been a democrat, I am firmly persuaded that the only safety and hope of the country lies in the success of the democratic party; and I am one of those democrats who when overruled in the counsels of the party on questions of expediency, or in the selection of candidates, have for the sake of unity and success, cheerfully yielded any personal preference—standing square on the platform and voting the nominated ticket. At this time when the public peril is so great, and success of such paramount consequence, unity and harmony are, if possible, more than ever important. With the associations and experiences of the past, nay, moved by the very instincts of my nature, I can but feel proud to be called to bear a standard in the coming contest, and shall devote to the cause the best energies at my command. With diffidence in view of the grave responsibilities involved, but animated by a firm resolve to do my whole if elected, I accept the nomination.

Thanking you for the courteous manner in which you have communicated the action of the convention.

I remain very respectfully,
Your obedient servant.
GEORGE HILLYER.

LETTER FROM NIAGARA.

Niagara by Moonlight—The Sere and Yellow Leaf—A Gay and Brilliant Season—Southern Beauty.

[Correspondence of The Constitution]

NIAGARA FALLS, October 4, 1870.

Few indeed are the persons who have seen Niagara in all its grandeur. One may see it in sunshine or shower, in calm or tempest, when the sun gently lights up the waters and tints the rising clouds of spray, or when the roll of thunder and crash of lightning render the scene doubly terrible, in flood or in drought, but who has never seen it when fair Luna lights up the scene, when the gentle moon beams from a golden path from your footing, up, as it seems, across the waters, forming a sort of Jacob's ladder to the very heavens, cannot in reality claim to have seen the majestic "father of thunderers" in all of his magnificence. To walk over Goat, Luna, and the Three Sisters islands, or out across the bridge to the Terrapin Tower, during a bright moon-light evening; to sit and enjoy the scene; to ponder, reflect, and build air castles; to dream of the future, and enjoy, as will most likely be the case, the angel who will probably be at your side, is a pleasure which seems too real for earth, and carries you, in imagination, up the Jacob's ladder in a third heaven of contentment.

AUTUMN

is with us again, and already the sere and yellow leaf heralds the approach of the Ice King, who vainly tries to fetter old Niagara during his reign. The pleasure travel to this grand shrine of omnipotence and power, not only during the summer months but all the year round, and it is now quite as fashionable to come in winter as summer, a first-class hotel, the Spencer House, having opened for the accommodation of winter tourists.

THE FASHIONABLE SEASON OF 1870

has been a gay one at all of the pleasure resorts, but it will soon be over now, and ere many days, the merry throng will be wending its way towards the sunny South, where you may expect one of the greatest crowd of travelers during the winter months that ever was seen south of Washington.

THE BRIDE OF THE SEASON

has been a Mrs. C. M. DeS——, of Charleston, who, with her unrivalled beauty and winning ways, has made no less than thirty-three broken mal: hearts.

Yours, POLINTO.

A New View of the Election.

ATHENS, GA., October 7, 1870.

Editor Constitution: With your permission I desire to call attention to some important points in relation to the apprachiug election in our State.

My position is this: The Democratic party of Georgia should proceed to hold the election on the 8th of November next as though the Akerman election bill had never passed. My reasons are as follows:

First, Admit, for the sake of argument, that the election will take place as provided in the Akerman bill, commencing on the 29th of December next, and all the officers are elected according to the provisions of the aforesaid bill, the question of the constitutionality of the election is then raised, and carried to the Supreme Court, and that tribunal will, beyond controversy, hold this infamous bill unconstitutional—the election therefore null and void. And the 8th of November, the constitutional time for holding the election having passed, prolongation is secured.

But if the election is held on the 8th of November, I verily believe the Supreme Court will hold it constitutional and valid to all intents and purposes.

Secondly, I doubt our having any election at all under this bill. 'Tis true the bill makes it the duty of the Governor to appoint managers, by and with the advice and consent of the Senate. It merely being made the duty of the Governor to appoint managers, is no reason to Bullock why he should do it, unless he sees that holding the election will be to his interest.

But suppose the Governor does recommend the names of managers to the Senate for confirmation, where, Mr. Editor, is any guarantee that the Senate will confirm them? Nay, is it not more than probable that this Senate, in its infamy, will extend the present session to, or even beyond the 8th of November and then refuse to confirm the Governor's recommendations, which together with an adjournment then, would defeat any election in 1870 and as a natural consequence secure prolongation.

Hence, I say, let us get out our candidates and hold the election on the 8th of November, and if any election is held on the 29th of December, let us run the same candidates at that also.

These, Mr. Editor, are my views concisely stated on this point. Should they meet your approbation I hope you will amplify and urge them through your valuable journal.

Yours very truly,
TREBLA.

Mr. Burns stated that the bill was drawn up by a lawyer of Atlanta who was to receive $4000 for it.

HOUSE OF REPRESENTATIVES.

MONDAY, October 10, 1870.

Prayer by Rev. Mr. Clark.

The journal of Saturday's proceedings was read.

Mr. Fowler moved to reconsider so much of Saturday's proceedings as relate to the loss of a bill to regulate the practice of medicine in this State. He stated that he made this motion at the request of several physicians for the purpose of having the bill recommitted.

The Senate bill to organize a District Court for each Senatorial District in this State, to define the jurisdiction thereof, etc., was read the third time.

The bill was acted on by Districts.

Mr. Rawls moved to strike out the First District.

Porter, of Chatham, objected.

Mr. Armstrong made the point of order that the constitution makes the establishment of this court imperative.

The Speaker pro tem. said he would not undertake to decide the costitutional points in the bill.

Porter, of Chatham, remarked that the criminal jurisdiction of Justices' Courts oppresses the people, and some other courts are necessary for the proper administration of justice.

Mr. Seale moved to indefinitely postpone the whole bill.

Mr. O'Neal, of Lowndes, made the point of order that the whole bill was not before the House, it having been agreed by the House to act on the bill by Senatorial Districts.

This point was ruled as well taken.

Porter moved to lay Mr. Rawles' motion on the table, which motion prevailed.

A message from the Governor was received.

The 3d, 5th, 6th, 12th, 13th, 15th, 16th, 27th, 31st, 32d, 33d, 34th, 35th, 38th, 39th, 40th, 41st, 42d, 43d, 44th Senatorial districts were exempted from the provisions of the bill.

The counties of Effingham, Glynn, Colquitt, Heard and Coweta, were exempted from the operation of this bill, which establishes Counts in the Senatorial districts to which they are attached.

Turner, of Bibb, spoke at some length, detailing the impositions practiced by Justices of the Peace and Notaries Public, and urged the necessity of some such measure as this bill.

Mr. Shumate thought that the bill had been so amended that it would be ridiculous to do anything with the bill, but to indefinitely postpone it; that, in his opinion, it is unconstitutional to exempt some counties from the effect of the bill, when it has been adopted for those Senatorial districts to which said counties are attached.

Mr. O'Neal, of Lowndes, remarked that he agreed with the gentleman from Whitfield, in reference to exempting certain counties in Senatorial districts embraced in the bill, but that these defects can be reconsidered, and the bill be put in proper shape, for the approval or disapproval of the Governor.

Mr. McCormick moved to amend by requiring the judge to be an attorney duly licensed. Lost.

Mr. Bethune moved to amend by striking out 30 and inserting 25 as the required age of the judge.

Mr. Phillips, of Echols, opposed this amendment, urging the necessity of having men of discretion and experience to administer the law.

Mr. Bethune remarked that there were hundreds of young men in Georgia who could fill the position well. He condemned the idea of keeping down the young men of the State, and thought it bad policy for any country or State. He called the previous question on the adoption of his amendment, which call was sustained and the amendment was adopted.

Mr. Armstrong moved to amend by striking out that part of the bill requiring the Judge and Solicitor to have been residents of the district one year previous to appointment. This amendment was, on motion, laid on the table.

Mr. Fitzpatrick called the previous question on the adoption of the bill as amended, the call was not sustained.

On the main question the yeas and nays were demanded with the following result: yeas 64—nays 38, so the bill was passed.

The bill to repeal part of section 796 Revised Code was lost.

The bill to change the time of holding the Superior Courts of Bryan, McIntosh and Effingham counties was passed.

Several of the Standing Committees submitted reports.

Mr. Maul, Chairman of the Committee on the Asylum for the Blind, submitted a report, recommending an appropriation of $11 000 for said asylum.

Mr. Hall, of Glynn, offered a resolution providing that hereafter the daily sessions of this House shall be from 10 o'clock A. M. to 1 o'clock P. M., from 3 o'clock P. M. to 5 o'clock P. M. and from 8 o'clock P. M. to 9½ o'clock P. M.

This resolution was adopted.

The bill to incorporate the town of Norcross was passed.

The reconsidered bill to lay out a new county from Warren and Columbia county was, on motion of Mr. Neal, taken up and read. On the passage of the bill, the yeas were 82, the nays 12.

On motion of Mr. Ford, the use of this Hall was tendered to Judge Parrott for the purpose of delivering an address to-morrow night in reference to the State Road.

On motion of Golden, a seat on the floor was tendered to E. E. Howard, Esq.

On motion, the House adjourned until 10 A. M. to-morrow.

Judge Lochrane's Charge to the Grand Jury.

Mr. Foreman and Gentlemen of the Grand Jury:

It now becomes my duty to charge you in relation to the several duties imposed upon you under our constitution and laws. In discharging this duty I shall not indulge in any ostentatious display of learning or authority to warm your imagination with illustrations of the dignity and power involved in the official station you occupy. Suffice it to say, that your body forms the great essential constituent of all free governments, and has been established in our judicial system with every preliminary safe-guard that secures to your action purity, independence and power.

It is necessary, therefore, that in the discharge of your duty you should move with unswerving determination to be vigilant and unbending in the administration of the criminal laws.

Without the interposition of the Grand Jury, the courts are impotent to punish the violaters of the public peace and the idle, vicious and reckless transgressor. It is on your action depends the action of the court. For in the first instance all matters originated are investigated by you, and except indictments are found or presentments preferred by you, the arm of the law can not reach the offenders. It will be your duty then, gentlemen, to vigilantly enquire and true presentments make of all such matters and things as may be given you in charge as comes to your knowledge touching the present service.

The social disorder which has followed wars, inspires this duty by the necessity imposed on all to maintain the law in its full integrity and power, unconditionally, unequivocally, and deliberately. We must resolve to make the law of the land respected. A decisive and unwavering determination upon our part will be hailed by every lover of the commonwealth with the profoundest and gratification. In our hands the law must not only exist as a statuary provision. It must live as an active sentiment ripening into an overwhelming conviction of duty.

I give you in charge the Penal Code of the State, its provisions and punishments are before you. Enforce them. The right of every man in this land is to the protection that secures life and liberty, the right is older than these States. It came with the common law to Georgia when she was a colony, and in the terse language of another: "It is the inheritance of inheritance, without which inheritance we have no inheritance." There is no guarantee for its protection but the settled sentiment of justice. Where this is even doubted the people begin to feel enervated and helpless. But with sincerity of the sentiment every incentive to confidence is restored. In the mass, our people are loyal to law and faithful to its enforcement. But occasional violences startle the community, and manifested sympathy for the individual frequently gives the appearance of indifference to crimes which does not exist, but is perverted to an indulgence for offenses which invites, if it does not produce these repetitions.

I call your attention as the Grand Jury, and through you the public, to understand that we are in earnest, and that our purpose is to rid the community of criminals; that in the lower walks of life industry must become more a habit and housebreaking and theft must be rooted out; that the use of deadly weapons upon all occasions must be given up. This practice is the very head and front of half the murders committed. Men meet, drink, get into some dispute, vituperative epithets are used, and out comes a pistol; *death ensues*, then the dungeon, the confinement, continuances, trial, sympathies and *verdict*.

This habit is hostile to the public peace, and until grand juries boldly meet it, its victims will fall day after day, and a whole community of virtuous, intelligent, and law-abiding citizens suffer and be sacrificed to the illegal privileges of a few generally half drunken rowdies.

In the administration of the law we have no right to question its policy, or neglect its enforcement because we do not approve its provisions. I might say frankly to you, gentlemen, after some experience on the bench, and closely observing the effects of punishment, that I believe the system generally to be ill-advised and fruitless of reforming the offender, or deterring others from like acts. For illustration, in murder, if I had my views of punishment enforced, instead of hanging, I would take a man who had extinguished life by violence and I would put out his eyes, so that every child, in meeting him walking the streets, would grow up with a terror in his youthful heart against the crime of murder.

Every school-boy would have before him an example of the horror of such acts, and be reminded of the certainty and terror of punishment. Nor is this cruelty; that which protects all in its enforcement is clemency to society. Let us look forward to the public, and not keep so constantly looking at the individual. But with the policy of punishment I have nothing to do. We are but administrators of the law—not legislators—and our oath does not invoke conscientious approval, but a naked official enforcement.

I call your attention to the law of gaming. This is a social vice that spreads its roots everywhere, and climbs up to the highest eminences. In its effects, bringing along a thousand other evils, that too frequently lead to dissipation and profligacy. The eye of the Jury should be directed specially to the young, just entering on the career when presentment may operate as an admonition.

As a branch of the same character of offense it becomes my duty to charge you upon the immoralities, that fill houses of ill fame, and lead into temptation; you, gentlemen, are the guardians, by your office, of this community; and you cannot permit matters to pass unnoticed, that lead to the injury of the body politic. I have only one remark to make. You see in one of your up-stairs windows a poor, honest, hard-working, and nearly heart-broken girl, the scanty clothing scarce protects her from the inclemency of the weather; she is toiling by day and by night to earn a subsistence, she lifts up her eyes from her toil and looks out upon vice dressed up in silks, flashing with jewelry, riding by in carriages, when her eyes are red, and her feet tired going home to poverty in the mud and wet. Think you the incentive you give to virtue, as fathers, by imaging the train of thoughts flitting through her brain. Do you practice by your acts the sublime invocation of the Lord's prayer, "Lead us not into temptation." I leave the subject with you.

Other matters more local and fiscal invite your attention. You will examine the condition of your public roads. The Commissioners are exempt from jury duty and should execute their trusts. Good roads are the evidences of your prosperity. Examine your public bridges and see their condition; examine the records as to their safety, and the fiscal affairs of your county generally; and the condition of your public buildings, especially the jail. Since I have been upon the Bench much has been said as to its want of convenience and necessary comfort. With this, gentlemen, you have the usual privilege of suggestion by recommendation in your general presentments. And with these remarks your body will retire your room.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first symptoms of worms; for so surely as they exist, can they be safely and as certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful to see that the initials are B. A. This is the article that has been so

THE AMERICAN
NEEDLE COTTON GIN,
WITH THE
EAGLE COTTON PRESS
HAS NO EQUAL.

AS General Agent for the State of Georgia for the above, I beg to call the attention of farmers to them.

THE NEEDLE COTTON GIN

Was placed before the public last season as an original and entirely new machine. It had, as all new machines have, some defects, the chief one being in the needle's lacking strength. This weakness is entirely removed, and I offer to the public for the present season, in the Needle Gin, one that combines with its superiority in all other respects, durability.

Gins sold last season will be supplied with entire outfit of the improved needles, free of cost.

THE EAGLE PRESS

Is a chain power press, more forcible than any power ever invented for packing cotton.

The State Fair and the Fair Grounds.

The State Fair is close at hand. The grounds are nearly completed, and will be in thorough order by the Fair.

Articles are beginning to come in. There is every prospect of a grand occasion. The most ample preparations have been made for everything and everybody. We do not hesitate to declare that nothing has been omitted, or will be left undone, to make the Fair a complete success.

For the benefit of our readers, we have been looking into matters, and propose to give them an account of the grounds.

Under the energetic supervision of Mr. J. C. Kimball the work has been carried on to satisfactory completion. We do not believe that a more useful, practical and ornamental Fair Ground can be found South. The difficulties to contend with have been great, but they have been overcome in a masterly manner and turned to good account.

The inclosure, in a neat whitewashed fence, contains fifty-six acres, and the undulations and irregularities while creating the necessity for greater expense makes the grounds more beautiful and attractive. A handsome gateway greets you at the entrance of the Park. This gateway is highly ornamental. It cost some eight thousand dollars, and forms a handsome introduction to other beauties.

The park is encircled inside the fence by a hard, wide drive. A ride on this around the park will give one a fine view of the whole and of all the parts.

The race track is a neat, oblong course, fenced in and covered with white soil. It is a half-mile track forty-two feet wide. It is faced by a covered amphithetre two hundred and eighty feet long and thirty-two feet wide, that command from every part a full and splendid view of the entire track. A beautiful little structure is the judges' stand, right opposite the amphitheater. This stand is an elegant little specimen of ornamental architecture.

The great charm of this track is that it nestles in a natural amphitheater, and every foot of it is visible from any point around it. The horses and riders are never lost sight of for a second, but every step made is conspicuously clear and visible, and thus the interest in the racing is never permitted to drop. We have never before been so impressed with the advantage of a short track to spectators. To the left of the amphitheater is an elevated prominence finely overlooking the track, where rude seats will be placed in the open air. The amphitheater is two stories, and the seats admirably arranged for a fine view. It will seat five thousand people.

The Macon track, a very fine one, is thirty-seven feet wide and a mile around. This track is forty-two feet wide and a half mile around, and we think much the best. The construction of this track has been at a cost of over twenty thousand dollars. This great outlay was occasioned by the irregularity of the ground.

The houses containing the exhibition rooms, consists of four main buildings, two stories each, 100 by 50 feet. They are neatly white-washed outside and painted inside. They are arranged internally with excellent tact for the exhibition of articles. The machine depot is 100 by 50 feet. There is a long building, also, for cotton gins, 120 by 28 feet. Mr. Echols has a special building, 30 by 60 feet, constructed by himself, for the exhibition of his agricultural implements.

It will thus be seen that the exhibtion room is considerably larger than in the fine, large building at Macon.

There is a room for the press to use 20 by 40 feet.

For the stock the arrangements are most ample. The inclosure is nearly lined with stalls. There are 450 comfortable and commodious stalls, roomy and ventilated and secure.

The eating arrangements will be on an extensive scale. The main houses are one 176 by 32 and one 130 by 31 feet, the smallest one being some forty or fifty feet larger than the one on the Macon grounds. The most capable hands are in charge of this establishment, and provision has been made for feeding any number of hungry mouths. In addition to this, there will be other stands where refreshments can be obtained.

Inside of the Fair Grounds there is a collection of two hundred feet of stalls for the convenience of stock belonging to the members of the Park Association.

For the benefit of the country visitors who come in their own vehicles, there is an inclosure outside of the grounds, but connected with them, where the stock and vehicles can be safely left under charge of responsible parties. Parties can deposit their buggies and horses, and get checks for them, thus being relieved of all responsibility, and left free to an unrestrained enjoyment of the day without any solicitude about their transportation.

There are saloons for ladies and for gentlemen, with every convenience for toilet and other uses.

Among the attractions of the place are three small basins of water, with boats on them for rowing. Trees have been left in the water and preserved by terracing around them.

On the grounds is a large fine skating rink two hundred by fifty feet. This rink is one of the most commodious in the country.

In addition to the structures mentioned, there are eight more buildings and twelve stands of various sizes and for various purposes, including ornamental cottages and store-houses.

We are informed that the expenditures on the houses and grounds in the park will not aggregate less than one hundred and twenty-five thousand dollars by the opening day of the fair.

A double track has been built by the State Road, and trains will run back and forth during the Fair every thirty minutes.

It will thus be seen how extensive and complete are the arrangements for the State Fair. And we are sure our State contemporaries will not undervalue them. There is no rivalry between the fairs of our sister cities and this one.

This is the State matter, and every part of the State is interested in its success.

Floral Hall Fair, Second Day.

DALTON, GA., October 10, 1870.

Editors Constitution: This hall presents an appearance that Nashville might envy. There are many curiosities, such as a piece of the house of Columbus, a pin cushion made of a piece of Mrs. Madison's dress worn by her on the reception of LaFayette at the White House. Painting is well represented. Some beautiful specimens are done by a young lady of General Green's family. A carpet that equals factory-made, in fact the department of Southern manufactory could not be excelled in any county in the State, nor equalled by many. The kitchen display is most excellent. Miss Fulsome has some preserves that would grace her Majesty's banquet, some butter that her royal throat would not disdain to swallow. The horticultural department as well as the garden, orchard, poultry and stock, were well represented. The grounds are pretty and well arranged, considering the short space of time allotted them. They are nicely fenced in, and the buildings good. The attendance is large.

Andrew Johnson is expected to-morrow, and Governor Bullock and the excursionists are invited to attend.

The ladies have a piano, organ and string band in Floral Hall, where they give a continual concert. Mr. Christian, of the Calhoun Times, is on hand, the only reporter we see.

Our thanks are due to the officers for the usual courtesies to the knights of the lead pencil. Yours, BONNIE.

The Dalton Fair.

FAIR GROUND, DALTON, Oct. 1870.
FOURTH DAY.

Editor Constitution: This is the last day of the Fair, which has been a pleasant meeting of friends and soldiers. The premiums are beautiful, and those who received them deservedly got them.

The society will give complimentary certificates to all who did not receive a prize. We think that well, as it encourages them to come next year.

A spirited half mile jockey race come off. Time: first, 1m 4s; 2d, 1m 2s; 3d 55s, by a colt owned by Mr. Crow of this county.

A set of furniture that would grace any ladies rooms, made here by the Cherokee Company, is on exhibition. Miss T. Green got the tea set, Mr. Sharp's premium. The fantasticks gave an amusing entertainment.

The Tournament has been a perfect success. Mr. Miller, Knight of the Red Cross, took the first prize, and Mr. Keith, Knight of the Nation the second. The others deserve much praise for their skill in horsemanship and enterprise. The only accident was an amusing one. The seats fell down, and no one was hurt as it was a scientific spill. Not a disorderly or drunken person was on the ground.

The Fair closed after distributing the prizes, and a very appropriate speech made by Colonel Moore.

A complimentary premium in cash was awarded us by the courteous officers, which we shall long keep as a souvenier of Dalton's first fair. "Long may they wave."

We send you a portion of the stock prizes:

Thoroughbread stallion, S. K. James; S. Peele, best jack; best matched horses, Mr. Cates, Tennessee; best bull, Mr. McMacon, Georgia; W. W. Corsly, best saddle mare; W G. Thors, best brood mare; J. C. Norton, best mule; W. M. Gibson, best apples, Tennessee; G. W. Yarbross, best cow; W. W. Coksy, best heifer; Jerry Ray, best horse colt; J. C. Norton, best mare colt; J. B. Harris, best saddle horse; F. A. Fulson, best bull calf, and sow; J. Richardson, complimentary for best thoroughbread heifer; W. H. Booker, best bread calf; Mrs. Rachel Groves, 81 years old, best quilt; Glenn & Wright, best hay press and cotton packer.

Diplomas and over two hundred and fifty prizes were awarded.

Yours, BONNIE V.

Every defense has its men at their posts. The Nationals drill constantly behind the barricades. The impregnability of Paris is no illusion, and can not be captured or surprised, nor reduced by starvation.

Arms are now coming from every quarter of the globe. Workmen and money are now forthcoming. The provinces must resist torpor and panic. All partisans must aid the Republic. Soon winter will come, finding the Prussians far from home, decimated by French arms, hunger and nature. France shall never lose its place in the world through the invasion of half a million of men. Paris gives the watchword, "Vive Republique," one and indevisible.

MIDNIGHT DISPATCHES.

ENGLAND.

LONDON, October 10.—Versailles was relieved from the payment of 400,000 francs levied by the Prussians.

Squads of Prussian huzzars were attacked on the night of the 7th through the treachery of the inhabitants of the village of Ablies. The town was afterwards burned by the Prussians as a punishment, and numerous bodies of French have since been dispersed in that neighborhood.

A large Bavarian force is south of Etampes and villages at the north of Paris, which were deserted on the approach of the Germans, are repeopled again.

Mr. Wade, the English Secretary of Legation at Pekin, telegraphs to the Foreign Office, September 26, that all is quiet at Pekin and Tientsin.

Canti, Secretary of the Emperor Napoleon, writes to the Brussels Journal as follows: "My name has been associated with the publication of two documents, alleged to have been found in the Tuileries. I submit, in explanation, that the note about Belgium, reported to be in my own handwriting, was not mine; the Emperor never dictated such language to me. The paper is doubtless one of the thousands of irresponsible parties, daily submitted to the Emperor. His letter to me I read, and as framed, it was a demand for money, attended by threats of publishing scandalous papers. I ordered him from my office. Permit me to add, that the reported manifesto of the Emperor in the English papers is apocryphal."

FRANCE.

TOURS, via London, October 10.—During the sitting of the government the crowd gathered in the court yard and displayed the French and American flags.

Garibaldi was vociferously cheered and made a speech, expressing the belief that the redemption of France was approaching. In a subsequent address to the National Guard, Garibaldi announced that he was to command all the volunteers in the French service.

It is understood here that a battle is imminent near Tessry.

The Prussians have returned there in force.

The French, with a considerable army, met them.

Tours is full of volunteers and conscripts from the South.

Gambetta is displaying great ability and energy.

The journals of Legitimist proclivities condemn the adjournment of elections. Other journals applaud the measure.

All eulogize Gambetta's enterprize and courage in leaving Paris as he did.

TWENTY-EIGHT chambermaids have arrived from New York for the H. I. Kimball House. They are stopping at the Ficken House.

THE attention of the members of Hook and Ladder Company is called to the advertisement of the Secretary which appears in this morning's issue.

W. W. HANLY & Co., of Cincinnati, Ohio, receive their teas direct from China and Japan, and are by this means able to sell cheaper than others. Our merchants would do well to note this. See advertisement.

NOTICE the advertisement of John Duffy & Co., of Louisville, Kentucky. They will give the best of reference, sell their seed and implements at the lowest prices, and warrant every article they sell.

THOMPSON, at the National Hotel Restaurant, is always found at his post ready to wait on his customers. He has on hand green turtle, oysters, fish, and everything suitable for the season.

FULTON Superior Court met yesterday. After organizing the Grand Jury, hearing Judge Lochrane's charge and partially organizing the Petit Jury, the Court adjourned until this morning.

THE contract for supplying the H. I. Kimball House with fresh meats, milk and poultry has been awarded to Messrs. Terhune & Thomas. This is a sure guarantee that the house will be supplied with the best the market affords.

A MEETING of the Memorial Association will be held at General Gordon's office this afternoon at four o'clock. The Executive Committee, Colonel Hoge, Colonel Clarke, Major Williams, Captain Newman, Captain Milledge, Captain Morrow, General Anderson, and Major Edwards, are requested to attend,

WE call special attention to the advertisement of Jas. Kennedy, Merchant Miller, of Louisville, Ky. Superior judges have given his brands the preference to others of that city. His trade with the South is large, owing to his low prices, the excellent quality of his flour, and honorable dealings with all.

BASE BALL TOURNAMENT.—Arrangements have been made for a grand Base Ball Tournament at the approaching state Fair in this city. The Gate City Base Ball Club, with their accustomed generosity, have offered a handsome premium. All necessary information will be made known to the public at an early day. Communication in reference to the particulars of the Tournament, should be addressed to C. A. Collier, Secretary.

WEEKLY REPORT OF COTTON MARKET. During the past week prices from wagon have continued with much uniformity at 13¼ to 13⅜, mostly the former, for a good style of low middling to New York middling, with lower grades at relatively lower figures. From warehouse about ⅛c. above these rates may be considered a fair quotation. New York, during the week, has ranged from 16¼ to 16⅞ for middling, closing dull at the former figure.

The receipts at the ports continue to increase, though yet behind those of the same time last year, a fact which is due to the greater lateness of the season, and perhaps to the presence of yellow fever at New Orleans. There can be no doubt that a larger total will soon be exhibited, with a constantly increasing surplus, as the season advances. It is useless, under this state of things, to look for better prices. A superabundance of present supply always tends to lower a market, and this tendency can be checked only by the belief that the total will be deficient, or the demand materially increased. Moreover, there is now, whatever may have been the case heretofore, no reasonable hope for an immediate cessation of the war, nor is it all certain that the fall of Paris would be followed at once by that result. Lower prices are very probable; and, under the circumstances, we cannot but believe that it is to the interest of farmers to withhold their cotton at present from the market. One thing at least is pretty well assured, and that is, that peace in Europe would immediately be followed by some reaction in prices.

Total receipts to date in Atlanta, about 3,100 bales.

Market opened Monday morning, October 10th, at 13½ from wagon.

THE BOARD OF EDUCATION.—For the information of the public, the following is presented:

On the 10th day of December last, the City Council elected twelve gentlemen a Board of Education to take in charge the public educational interests of the city, to consider and recommend such legislation, both by the General Assembly and City Council, as may be necessary to inaugurate a liberal system of Public Schools free to the children resident within the corporate limits.

The Board met and organized on the 23d day of December. Meetings have been held from time to time and much progress has been made in planning etc., etc The want of power on the part of the Council to establish and maintain a system of Public Schools, rendered it necessary to apply to the General Assembly for an amendment to the City Charter.

Awaiting the action of the Legislature, the Board was unable to proceed in a practical way until after the passage of the act approved September 30, 1870.

On the 4th day October the Board met pursuant to a call of the President, and appointed a committee to wait upon the Council on Friday night last, and inform that body that the members were willing and ready to proceed to the discharge of their trust, provided that the Council accepted the aforesaid amendment to the city charter, and empowered them to proceed under it. The following action was taken by the Council on the 7th instant:

By Alderman O'Keefe—adopted:

Whereas, on the 26th of November, 1869, certain resolutions were passed on the subject of public schools, and on the 10th day of December following, the Council, in pursuance of said resolutions, elected a Board of Education, consisting of twelve members; and whereas the General Assembly, by an act approved September 30, 1870, has, in clear and express terms, conferred on the Mayor and Council authority to establish and maintain a system of Public Schools, be it

Resolved, That in order to give to the previous action of Council above recited, the support of said act of the General Assembly, the election of said Board of Education is hereby ratified and confirmed, with all the rights, powers and duties provided for by said resolutions, so far as not already carried into effect, are hereby repassed, and declared to be in full force.

The Board of Education again met at 7½ P. M., on Saturday, the 8th instant, when the President was granted further time to appoint the standing committees of the Board, of which, according to the rules for its government, there are thirteen.

The special committee on rules and regulations for the government of the schools, was continued It consists of J. P. Logan, Chairman, M. C. Blanchard, S. H. Stout, W. A. Hemphill, and H. T. Philips.

A special committee consisting of L. E. Bleckley, E. E. Rawson, John H. Flynn, S. H. Stout, and D. C O'Keefe, was appointed to prepare for recommendation to Council, a draft of such ordinance as may be necessary to inaugurate proposed system of public schools.

The Secretary was empowered to purchase stationery and other materials necessary in the discharge of his duties.

The Board adjourned to meet on Thursday the 13th instant, at 7 and a half P. M.

It will be perceived that the City Council and Board of Education are now legally empowered to act upon this subject of public instruction. The Board now, as in the past, are willing to perform the duty assigned them.

Their apparent silence since January last is accounted for above. With the earnest and active co operation of their fellow-citizens, they hope to put in operation a system of public schools as soon as houses can be provided and the appropriations to sustain them are made.

I have been directed by the Board to furnish to such of the city papers as desire it, information as to their action, for the benefit of the public.

S. H. STOUT,
Secretary of the Board of Education, No. 30 Whitehall street, up stairs.

ATLANTA, GA., October 10, 1870.—COL. E F. HOGE—*Dear Sir:* The undersigned members of "The Young Men's Democratic Club," over which you so ably presided in the spring of 1868, being impressed with the importance of reorganizing our Association for work in the present canvass, respectfully request you as our former President to call a meeting of the Club, in order that it may prepare to take its place in the struggle, and do what it can to further the success of the Democratic party at the approaching election.

Very Respectfully,

Henry Hillyer, John T. Cooper, T. P. Westmoreland, M. B. Sisson, William G. Newman, Henry Jackson, W. S. Everett, O'in Wellborn, Albert Hape, Marshall J. Clarke, W. A. Hemphill, and others.

In obedience to the wishes of the original members of the Young Men's Democratic Club, as expressed in their letter of this date, I hereby call a meeting of the same at DeGives Opera House, on Wednesday evening, October 12th, at 7½ o'clock. All young men of Fulton county, who have heretofore acted with the Democratic party, together with those who desire to act with that party in the approaching campaign, are cordially invited to attend.

Issues of immense magnitude are before the country. Let us organize and be ready for the contest in December.

E F. HOGE.
President Young Men's Democratic Club.
October 10, 1870.

WE saw at A. T. Finney's yesterday a perfect gem of beauty in the shape of a pony phaeton, to be raffled for at the table of Mrs. John H. Flynn and Mrs. P. H. O'Neill at the Catholic Fair. The phaeton is one of Finney's make. Chances only two dollars. Who will be the lucky man?

"IS MR. KNICKERBOCKER IN?"—One whose position ranks him with the conscript fathers at Kimball's Opera House Capitol, a Radical of the deepest dye, having a figure that would indicate among the Chinese much mental capacity, from the proportions of his bread-basket, had his life insured by a traveling agent, and desiring to perfect his policy, came in an office where the Knickerbocker Mutual Life Insurance sign is on the outside. As big as life and as important as the Governor of four States, he inquired, "Is Mr. Knickerbocker in?" We looked at the man to see if some sign of past gone ages was not still visible about his carcass. When discovering his Radical stripe and the color of his wool, we only remarked, "he has just stepped out; call again." Shade of Washington Irving, instruct him.

Not inferior in wisdom to him was another of the same ilk, when asked by a constituent what he was doing in the Legislature. "Only getting nine dolars a day," was the innocent reply

ELBO.

A. T. FINNEY will exhibit at the State Fair a buggy manufactured at his establishment, which, for beauty of finish and durability, we think, will bear off the premium. Atlanta will not be afraid of competition in this line from any quarter.

A NEW ADDITION TO OUR NATIONAL BILL OF FARE.—The committee of ladies appointed by the Farmer's Club of the American Institute, among whom was an eminent medical graduate and the wife of the Secretary of the Institute, state in their report that a packet of Sea Moss Farina, costing twenty-five cents, will produce, when combined with milk, in due proportion, full sixteen quarts of blanc mange, while a packet of corn starch, maizena or farina, costing sixteen cents, will only produce, with a like quantity of milk, from four to six quarts, thus showing that the new food staple is actually worth, as a means of nourishment, about one hundred and fifty per cent. more than the heretofore-popular preparations from maize and grain. It is also stated that it has none of the heating properties of ordinary farinaceous food, and is digested and assimilated with wonderful rapidity.

AN old adage and a very true one, is "an ounce of prevention is worth more than a pound of cure," therefore the prudent who reside in localities where the air is more or less infected with malaria, will at all times keep on hand an antidote to prevent a visitation of those unpleasant malarious diseases know as intermittent and remittent fevers, and generally as chills and fevers. The most potent of these antidotes is Lippman's Great German Bitters, a medicinal cordial, pleasant to the taste and prompt in throwing off from the system diseases superinduced by living in malarious climates. oct11-deod1w&w1t.

SYSTEMS RUN DOWN.—Persons often allow their systems to "run down" or rather run them down by over-work, accompanied by a neglect of the proper means of invigoration. The result is what is called "general debility;" in other words, a failure and partial collapse of the physical forces, accompanied, usually, by great depression of spirits.

The best remedy in such cases is Hostetter's Stomach Bitters. Whether the state of exhaustion has been brought on by excessive physical labor, dissipation, anxiety of mind, exposure, or any other cause, the remedial effect of this great stomachic will be found equally prompt and certain. As a restorative, after severe sickness has prostrated the bodily and mental energies, it is pronounced, by competent medical authority, "the best tonic in use." If men were not foolishly careless about their health, and over confident in themselves, they would always, when engaged in any work that required great exertion, use corresponding means of sustaining their strength. For this purpose Hostetter's Bitters are invaluable. All toilers should use them as an invigorant.

For those constantly employed in indoor occupations, especially in crowded workshops, they may be reckoned as the very best safeguard of health. Where there is a predisposition to constipation, or a tendency to billiousness, they may be truly said to be a specific for which there is no substitute. oct11-d1w.

Death of Mrs. Cross.

Just as we are closing up our columns we receive the sad news of the death of this cherished friend. We have no words to tell how much we esteemed her friendship, and no space now for the eulogy our heart is inditing. Earth's sunshine is not so bright as it was yesterday—Heaven is dearer. The following letter, just received, tells the sad story of the saint's translation to a brighter world:

NOLIN, KY., September 29, 1870.

My Dear Doctor: At a quarter before six this morning departed the peaceful spirit of your friend, my beloved wife. I arrived from Atlanta only last night, too late for everything except her recognising "Yes," and the holding of her hand as she went down into the cold waters. How often have I heard her quote the words, "For so He giveth His beloved sleep!" Never were they more beautifully realized than in her tranquil death. She literally "fell asleep;" and now she lies before me with so soft a smile upon her face that one might well imagine her only in a happy dream. Tomorrow we shall carry her to Harrodsburg, and lay her beside her father and mother, where she will smile on under the sod till "the resurrection of the just." She had been ill for months, but was at length convalescent, and the day was appointed when I was to come and escort her to her Southern home, the hope of which filled her with reviving joy; but the angel convoy anticipated by six days my appointment, and Oh! how much better it is to be with Christ in Paradise! You, and thousands more will mingle your tears with mine; but we mourn not without hope, for it is "the Resurrection and the Life," that "giveth His beloved sleep." Farewell, sweet saint of Jesus! we shall meet thee "in that day!" Yours with much love. JOS. CROSS.

The City Hall at Augusta has been placed at the disposal of the Fair Association by Mayor Allen for the purpose of allowing persons who come here with blankets, etc., to occupy at night. The rooms are admirably adapted to this purpose, and will accommodate 300 or 400 people; with abundance of water, and under an efficient police force, which will be organized for the occasion, they will be most comfortable.

Mr. Alexander Murray, an old citizen of Gordon county, is now past 84 years old. He served in the successive wars of 1812, 1836, and 1861, and still retains his bodily strength, while his intellect is bright and clear. Mr. Murray has never been intoxicated, never took a chew of tobacco, and never smoked a cigar or pipe.

NAMUR, September 13.—Count Bismarck declared to me yesterday, September 12, that Germany would fight for ten years rather than abandon the demand for territorial guarantees against France. The possession of Metz and Strasbourg, he added, are indispensable.

☞ General Uhrich, the vengeful commander of Strasbourg, is said to be the husband of the celebrated danseuse, Taglioni, which may perhaps account for his advocacy of the lex Taglionis.

RUSSIA STILL HOSTILE.—A special at Ostend sends word that the latest advices from Russia are equally hostile to and almost contemptuous of both the Germans and the French.

CANCER! CANCER!

—:o:—

DR. W. L. HITCHCOCK,

Of Madison, Georgia,

Makes a specialty of treating all persons afflicted with

CANCERS, SCROFULA,

Indolent, Ulcers, etc., etc.

HE has successfully treated CANCERS for the last TWENTY YEARS, without the use of the knife or any mercurial agent. He begs to refer those afflicted to the following certificates of persons who have been cured by his treatment. They speak for themselves. The question will be asked who is Dr. Hitchcock? To all such I will answer that I was born and raised in Georgia. For all of which I fell proud. I am permanently located in Madison, Georgia.

DR. W. L. HITCHCOCK: It gives me pleasure to give my testimony in regard to the wonderful effects produced by your Vegetable Cancer Plaster. About five years ago I became afflicted with Cancer, just above my right breast. From that time to August 1st, 1869, I had as many as ten or twelve Physicians to examine and prescribe for it, but all proved of no avail. I called on you about the first of August, 1869, and put myself under your treatment. I am happy to say that your Plaster removed the Cancer, and I am now entirely well. I cheerfully give this certificate, not for the purpose of applauding you, though I feel under lasting obligations to you for the cure, I do it for the benefit of all such as may be afflicted with this terrible malady.
FRANCIS A. CALLOWAY.

Rutledge, Ga., June 1, 1870.
Tested by Dr. J. F. JACKSON,
Dr. J. J. MONTGOMERY.

DR. W. L. HITCHCOCK: I do hereby certify that I have had a Cancer on my angle of my jaw for fifteen years, and have applied to a number of physicians for treatment, but without success. The application of your celebrated Plaster removed the Cancer in eight days from the time of application. It has now been nearly two years since I was cured. I cheerfully give this for the benefit of the afflicted.
T. P. PEACOCK.

Madison, Ga., June 1, 1870.

I do certify that I have been troubled with a Cancer on my cheek, near my under eye-lid for two years past. I applied to Dr. W. L. HITCHCOCK, who applied his celebrated Cancer Plaster, and was agreeably surprised to see the Cancer come out whole, the eighth day from application; I am now well, and my face entirely healed up. I advise al persons afflicted with Cancer to give him a trial.
ROBERT SHIELDS.

Madison, August 2, 1869.

I have been suffering with a Cancer of the large kind, on the back of my neck, called rose cancer, for the past three years. I applied to Dr. W. L. HITCHCOCK, of Madison, who put a plaster on the Cancer, and, in eight days, it come out entirely. I am now well, and have been since the Cancer came out, which was last fall.
M. W. COFER.

Rutledge, Ga., September, 1868.

DR. W. L. HITCHCOCK—Dear Sir: I am pleased to state that your Plaster has entirely cured the Cancer on my nose, which has give me so much trouble. I shall ever feel grateful to you for the success of your remedy.
Mrs. LORINA STRATTON.

Madison, Ga., May, 1870.

Dr. W. L. HITCHCOCK: I am pleased to certify that I have had a large Cancer on my right arm for twenty years, and have seen and advised with numbers of Physicians, who advised me to let it alone, as they considered the Cancer too far advanced to be subdued by remedies. I heard of you and made application for treatment, as a last resort, and to my great satisfaction your Plaster has taken out the Cancer, in eight days, by the roots, and the sore is now rapidly healing, and I entertain strong hopes of a speedy recovery.
J. F. BURNS.

Edgefield Court House, S. C.

DR. W. L. HITCHCOCK—Dear Sir: I do hereby certify that I have been afflicted sorely with Cancer for fifteen years, and have tried many Physicians, and spent a great deal of money—all to no purpose, until I called on you, in Madison, last winter. The application of your Plaster has acted like a charm. I have the Cancer now in my possession, and the sores are all healed up, except one small place, which is nearly healed. I beg to refer all persons afflicted to call on Dr. Hitchcock, at Madison, Georgia.
T. B. REESE.

Edgefield C. H., S. C., or Hamburg, South Corolina, May, 1870.

Dr. W. L. HITCHCOCK—Dear Sir:—I am happy to certify that your remedies have cured the Cancer on my face and nose, that had given me so much pain for twelve years. It appears as sound as if I never had a Cancer.
Mrs. E. B. STANTON.

Newton County, Ga., April 23, 1870—Postoffice at Social Circle, Georgia.

It affords me pleasure to state that I have witnessed a number of remarkable cures of Cancer, by the application of Dr. W. L. Hitchcock's Cancer Plaster.
J. F. PATTERSON,
September, 1870. Madison, Ga.

DR. W. L. HITCHCOCK'S

LIVER MEDICINE.

I would also state that, in addition to my curing Cancers, I am in regular practice of medicine, and make a specialty of treating chronic diseases, especially those peculiar to females, to which, from a long experience and extensive practice, I guarantee perfect satisfaction. I also keep a full assortment of my Family Medicines on hand, of my own manufacturing, but I call your special attention to my celebrated COMPOUND FLUID EXTRACT OF STILLINGIA AND INDIAN HEMP, OR ALTERATIVE AND LIVER TONIC. It invariably relieves the following disorders: Chronic Torpidity of the Liver, Spleen, and Kidneys, Bladder. It cures Dyspepsia and Scrofula, Eruptions and Blotches of the Skin. It cures mercurial and old venerial diseases. Some will ask, how can this one medicine cure all of these diseases. The answer is this, it is so compounded to answer all of the requirements of those symptoms, being compounded of the best and purest and most reliable Liver medicine, tonic, alteratives, diuretic and disinfectants that belongs to the vegetable kingdom. This medicine is the result of twenty years experience. I used it in my private practice for the last 20 years, and within the last 6 months I have sold over $1,000 worth of it, and I have to hear of the first complaint. I claim and assert it without the fear of contradiction from any that have tried it, to be superior to any of the preparations of the day for the diseases that I recommend it for.

I have never advertised this medicine before. I have always been opposed to advertising nostrums and quack medicines, but having been persuaded, for years, by my friends, I have concluded to do so, for the good of all that may avail themselves of the benefit of it. I could give thousands of testimonials to the happy effects of this medicine, but being satisfied that it will recommend and sustain itself, and all I ask is to give it a fair and impartial trial. Take it by the direction on the bottle, and if you do not find it all, or more than I claim for it, then I will agree to stop the sale.

I put up my medicine in ONE and TWO DOLLAR bottles, to suit persons and patients.

One word more to those that are suffering with Cancers. Don't let the Doctor dishearten you. For the most of them will, because they can't cure you themselves, will tell you that you can't be cured.

I have been curing Cancers for twenty years, and have never failed but in one case, and that case was beyond medical aid. If you have a CANCER call and see me, and I will tell you in a half hour if I can cure you; will charge nothing for examination, and if I cure you, will be reasonable in may charges.

CERTIFICATES.

DR. W. L. HITCHCOCK—Dear Sir:—This is to certify that my wife and daughter, Mrs. W. H. Jones, of Union Point, Ga., and our cook woman, have used your Alterative Liver Medicine, and do all cheerfully say it has had a fine effect; has entirely relieved them of their liver affection. Dr. Cheny, of Newborn, said my little grandchild, was laboring under an affection of the liver, and also was badly affected with Asthma. I learn he has been entirely relieved. Our cook woman is about the turn of life, and has been suffering with diseased liver, and general debility of the whole system, together with inflammatory rheumatism. She says she is entirely cured by the use of your Medicine. I cheerfully recommend it to the public, believing it to be a good medicine.
Yours truly,
REV. W. A. FLORENCE,
Pastor of the M. E. Church, South, Madison, Ga.

DR. W. L. HITCHCOCK—Dear Sir:—I have used your Alterative and Liver Medicine, and have derived great benefit from it. Other members of my family have used it with like benefit, and I can confidently recommend it as a good remedy for the diseases you propose to relieve.
Yours, C. M. IRWIN,
Pastor Baptist Church.

Madison, Ga., September 6, 1870.

DR. W. L. HITCHCOCK—Dear Sir:—I have had the misfortune to be afflicted with a liver and dyspeptic affection for the last twenty years. I have scarcely been able to eat or digest my food without pain, and have often tried various remedies, but found no relief until I took a course of your Alterative Medicine. I am now well and hearty. I cheerfully recommend all persons who may be afflicted with indigestion, to give these Medicines a trial, and I am sure they will be relieved.
PHILIP SHOUSE.

Madison Ga., December, 1869.

DR. W. L. HITCHCOCK—Dear Sir:—I have been laboring under a dyspeptic and liver affection for a number of years past, so much so that I had reduced in flesh to a mere skeleton, and became cancerous, having a large one on my jaw, which had resisted treatment, or rather cure, for twelve years. I commenced taking your Alterative and Liver Medicine, which has affected a permanent cure. Your Cancer Plaster took out the cancer, and I am now well and hearty, and have been for two years. I recommend all persons, afflicted with the above diseases, to try your remedies.
T. P. PEACOCK.

Madison, Ga.

DR. W. L. HITCHCOCK—Dear Sir:—This is to certify that I have, for the last eight years, been afflicted with a canturious affection of the skin, which is greatly relieved by your Stillinga and Indian Hemp. I cheerfully recommend its use to all persons who may be thus afflicted. I find it to be all you represent it to be.

DR. W. L. HITCHCOCK—Sir:—This is to certify that I have used your Cathartic Liver Medicine in my family for the last two years with the most happy results. ROSADALIS!

R O S A D A L I S

THE Great American Health Restorer, purifies the blood and cures Scrofula Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesboro', Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.

LAGRANGE, GA., DEC. 3, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

I am, very respectfully,
